Océ ColorWave PlotWave  
Canon imagePROGRAF*

Océ  
ColorWave, PlotWave

Canon  
imagePROGRAF

*Turn any WideTEK  
scanner into a powerful  
and versatile MFP*

## Fully Featured Wide Format MFP Solution with No Compromises

The ScanWizard software with PrintWizard functionality turns every WideTEK scanner into a powerful and versatile MFP solution for Canon imagePROGRAF and Océ ColorWave and PlotWave printers. This solution overcomes the limits of the traditional MFPs supplied by large format printer vendors, which are either designed as an integral part of the printer or ship as an extra piece of equipment which is located in the air space above the plotter. Not only are these conventional MFPs limited in productivity and functionality, they can become a bottleneck if the originals are not perfect, clean, without wrinkles and folds. The only thing you have to sacrifice in exchange for ergonomic, user friendly scanning operation with instant access to high resolution images on a large touchscreen, is less than 0,8m<sup>2</sup> or 7 square feet of floor space.

PrintWizard fits almost all applications ranging from the scanning needs of an occasional user to the scanning power needed for large conversion projects. PrintWizard is the control center for all processes, whether they involve batch scanning of large jobs to SMB or FTP resources or copying a set of drawings to an Océ ColorWave and folding them on the fly using the folder connected to the Océ printer. You will have complete control over the printer from the scanner's touch screen; PrintWizard even shows you the amount of ink available in the printer, lets you select the media type and different paper sources and supports many more functions.

Connectivity is via LAN or WLAN, which even allows the scanner to be located in a different room than the printer(s). It is no longer necessary to install the scanner in the space above the printer, potentially obstructing access to the printer.

### PRINTWIZARD

- FULL SUPPORT OF COLORWAVE & PLOTWAVE
- SUPPORT OF Océ FOLDERS THROUGH PRINTWIZARD
- FULL SUPPORT OF imagePROGRAF
- ONE BUTTON COPY
- PREDEFINED SCANNER AND PRINTER TEMPLATES
- FREELY EDITABLE TEMPLATES

### WIDETEK

- SCANS DIRECTLY TO LAN, WLAN, SMB, FTP, USB
- 64 BIT LINUX PC BUILT IN
- CCD SCANNER FOR ALL TYPES OF DOCUMENTS
- CIS SCANNER FOR AEC AND GIS APPLICATIONS
- 36" MODEL FOR UP TO A1 SIZE IN PORTRAIT MODE
- 48" MODEL SCANS ALMOST ANYTHING

*PrintWizard & WideTEK Scanner*

**THE MOST VERSATILE, ERGONOMIC MFP SOLUTION**

### Gentle paper transport, easy to operate

All WideTEK scanners feature a large document feeding area of 200mm and a conveniently shaped input funnel. The paper path is made of stainless steel, easy to clean and nearly indestructible.

WideTEK scanners gently scan due to special transport rollers which apply as little as necessary force to the documents. Friction is minimized due to special surface properties of the all metal paper path, ensuring skew free, precise paper transport.

### WideTEK 36 /48-600 CCD scanner

State of the art illumination using bright white LEDs guarantees long lifetime and a low cost of ownership, since there are practically no consumables necessary over the life of the product. Cutting edge camera technology, with a dust-protected, fully sealed camera box holding three or four CCD systems that use a patented stitching procedure, delivers up to 1200 dpi scanner resolution.

The new and unique background drum does not touch the glass plate at any time, avoiding scratches and document skews. To achieve extra contrast on sepias and film based documents, the standard black drum can be exchanged with a white drum, without needing any tools.

### WideTEK 36 /48-600 CIS scanner

The CIS scanners use three or four high quality 12" wide CIS sensors with dual side rows of LED light eliminating the visibility of folds and wrinkles in the image.

Individual, very lightweight background drums form a slit of approximately 0.2mm and never touch the glass plate, avoiding scratches and document skews which are common with other designs.

### Full Coverage Warranty

The Image Access [Full Coverage Warranty](#) is unique in the industry. It can be purchased online on an annual basis for up to five years and covers all parts, even glass and transport rollers which other manufacturers call "warranty exempt consumables". Included in the warranty are also free support calls, software updates and more.

The total cost of ownership is greatly reduced compared to other scanners and the risk of having to buy expensive spare parts and consumables over the life time of the product is almost zero.

### ScanWizard

ScanWizard is the control center of the scanner and is running on the built in 64bit Linux PC, making an external PC obsolete. It is operated through the 22" external touch screen but can also be accessed by any web browser via the scanner's IP address. ScanWizard functionality includes:

- Automatic document width and position detection
- Crop and deskew operation even on long documents
- Virtual rescan letting you change scanning parameters on the fly without physically scanning again.
- Sending images to USB, SMB, FTP or in the network

### PrintWizard

PrintWizard converts every WideTEK scanner to a powerful MFP system by adding the printer of your choice. The PrintWizard is an extension to the ScanWizard and adds print and copy functionality to it.

PrintWizard has full control of all features of the attached printer, even paper properties or the level of available ink are visible without having to physically access the printer.

### Templates

ScanWizard and PrintWizard each have five predefined scanner and printer templates which help the less experienced user to pick the right settings. The settings defined by the templates as well as their names can be changed and new templates can be added to suit other applications.

### Copy Button

The copy button is also freely configurable and allows a **one button copy** function, using one of the templates. This makes copying a set of large documents easy for everyone.

### PrintWizard & WideTEK Scanner Markets

- AEC, Architecture, Engineering, Construction, CAD
- GIS, mapping services
- Utility companies, developers, government
- Copy services, reprographics
- Media control, press clipping services
- Universities, libraries, registries

### PrintWizard & WideTEK Scanner Applications

- Scanning of maps, color posters, display graphics,
- Reproducing artwork, photographs
- Scanning of engineering and architectural CAD drawings
- Production scanning of newspapers, periodicals and magazines
- Digitizing documents from government offices and registries
- Archiving and copying blueprints and sepias

## WideTEK PrintWizard Solution for imagePROGRAF

- Choice of 36" and 48" CCD and CIS based models
- Full support for imagePROGRAF 64XX, 84XX, 94XX printers
- Full support for ColorWave, PlotWave printers
- TCP/IP, Gigabit Ethernet, WLAN hotspot
- 64bit Linux PC built in, only power and LAN cable needed
- 7" full color touchscreen in the middle of the scanner
- 22" touchscreen, adjustable position, left or right mount
- Ergonomic floor stand, 508 handicapped compliant
- Paper catch, document return guides and tray options
- Large, convenient document feeding area (200mm)
- Fastest CIS color scanner on the market
- Hard surface, lightweight pressure rollers
- Full coverage warranty includes all parts and consumables
- **One price, one box, ready to run.** All parts are included

## WideTEK PrintWizard for Océ ColorWave, PlotWave

- PrintWizard for ColorWave printer included in the bundle
- PrintWizard for PlotWave printer included in the bundle

## Supported Wide Format Printers

Océ ColorWave	500, 550, 600, 600 Poster, 650, 650 Poster, 700, 900
Océ PlotWave	300, 340, 350, 360, 500, 750, 900
imagePROGRAF	650, 655, 670, 680, 681, 685, 686, 710, 720, 750, 755, 760, 765, 770, 780, 781, 785, 786, 810, 815, 820, 825, 830, 831, 840, 841, 850, 851
	6400, 6410, 6450, 6460, 8400, 8410, 9400, 9410
	6300S, 6400S, 6410S, 8300S, 8310S, 8400S, 8410S, 9400S, 9410S
	6400SE, 6410SE, 8400SE, 8410SE

## Supported Wide Format Scanners

Wide Format CCD Scanner	<a href="#">WideTEK 36-600</a> , <a href="#">WideTEK 48-600</a>
Wide Format CIS Scanner	<a href="#">WideTEK 36C-600</a> , <a href="#">WideTEK 48C-600</a>
Flatbed Scanner	<a href="#">WideTEK 25-600</a>

## Current MFP Solution for imagePROGRAF

- Scanning width 40", iPF printers are 36" or 44"
- No support for iPF 64XX, 84XX, 94XX
- No support for ColorWave, PlotWave printers
- Limited connectivity, USB 3.0 only
- Separate PC needed, many cables necessary
- Very small, text only display
- External touch screen at a high position
- Elevated floor stand, not convenient to operate
- No paper catch available
- Very small document feeding area
- Color scanning @ 300dpi and above is slow
- Soft pressure roller wears out easily
- Warranty excludes roller, glass and other parts
- Total cost not transparent, PC and software missing

## Current MFP Solution for Océ ColorWave, Plotwave

- Stand alone TC4 controller is discontinued

## What's in the Box:

- Scanner with power supply and network cable
- Floor stand with paper catch and foot pedal
- Document return guides
- White background drum (CCD models only)
- 22" touch screen with adjustable arm
- License key for OCE, imagePROGRAF, Batch Scan Wizard
