

Bookeye® and WideTEK® Scanners on Tour at International Library and Museum Shows in May

Wuppertal - May 3, 2019

From May 7 - 10, 2019, the 2019 ELAG Conference will take place in the Staatsbibliothek (State Library of Berlin) in Berlin, Germany. ELAG is Europe's leading conference on the use of information technology in libraries and documentation centers.

From May 7 - 10, 2019, the 2019 [ELAG Conference](#) will take place in the Staatsbibliothek (State Library of Berlin) in Berlin, Germany. ELAG is Europe's leading conference on the use of information technology in libraries and documentation centers. For over thirty years, the ELAG (European Library Automation Group) conference has offered library and IT professionals the opportunity to discuss new technologies and developments and share best practices. Accompanying the conference, there will be an exhibition featuring companies specialized in library automation technologies, presenting their latest developments and projects.

Image Access will exhibit in the Foyer for the first time, with its partner ImageWare Components. Attendees can experience the large format fine art scanner [WideTEK® 36ART](#), producing high quality 3D textured color replicas of works of art or other textured originals. ImageWare Components presents software solutions using the Image Access book scanner [Bookeye® 4 V2 Semiautomatic](#).

On May 15 and 16, 2019, it's off to London for the 2019 [Museums & Heritage Show](#) at Olympia London. The Museums & Heritage Show is the largest exhibition for the museums and cultural sector in the UK. Over 2,000 Museum professionals from the UK and Europe attend the show to source new products and services for their Museum, Gallery or Attractions. It is the perfect place to present the WideTEK® 36ART. Image Access will also exhibit the book scanner [Bookeye® 4 V2 Semiautomatic](#). Visit Image Access in booth E10.

From May 19-21, 2019 Image Access will exhibit in booth 1537 at the [American Alliance of Museums Annual Meeting and Museum Expo](#) in New Orleans, presenting the large format fine art scanner [WideTEK® 36ART](#), the [WideTEK® 25](#) large format color flatbed scanner and the [Bookeye®](#) overhead book scanner. The American Alliance of Museums (AAM), represents more than 35,000 professionals and volunteers, institutions, and corporate partners in the sector. AAM's Annual Meeting and Museum Expo offers museum professionals more than 160 interactive sessions, on topics ranging from collections management and curatorial practice, to education and audience research; from exhibit planning and design to marketing and community engagement.

About Image Access

Image Access is the technology leader in the large format scanning market and offers products in all large format segments: Bookeye® overhead scanners for valuable books more than A1 in size, WideTEK® ART non-contact fine art scanner for formats up to 36 x 60 inches, WideTEK® flatbed scanners for formats greater than A2 / 25x18.5", WideTEK® sheet feed scanners for documents between 36", 48" and 60" and 36"duplex scanners for high volume production of double sided scans.
