Most versatile MFP stand in the industry. Fast copy to HP, Canon, Epson and Océ printers.
WideTEK Adjustable Stand

The WideTEK® adjustable floor stands are available in widths of 36 "and 48" for CCD and CIS scanners and can be adjusted to the desired height. WT-STAND-ADJ accepts printers of any width and up to 1180mm (46,5") high. The height of the stand can be lowered to 880mm (34,5") if necessary.

When mounted to the stand, the scanner can be moved toward the front on telescopic guides. The design is not only extremely stable but also can invisibly hold the power supply, a network switch and a power extension bar in the back of the lower crossbar.

A preview monitor can be freely positioned by attaching the monitor holder (optionally available) to the floor stand.

Features of the WideTEK Adjustable Stand

• WT36-STAND-ADJ for WT36, WT36CL, WT36CL-MF scanners
• WT48-STAND-ADJ for WT44, WT48, WT48CL scanners
• Most versatile MFP stand in the industry.
• Supports any width printer, up to 1180mm (46,5") high.
• Fast copy to HP, Canon, Epson and Océ printers.
• Sits against a wall, leveled via adjustable feet.
• Slightly angled forward for convenient access by operators.
• The lock and release mechanism allows the scanner to be moved forward to the operator for easy access.
• Easy storage of power supply and cables behind the crossbar.
